INSTRUCTION MANUAL LAPCOUNTER MODEL (LC #90040, Silver Logo)

GENERAL INSTRUCTIONS

Congratulations on your SportCount LapCounter purchase. The LapCounter can count laps in a pool or around a track, the number of people attending a sports event, inventory units, and just about any kind of activity or item. It's easy to use, and it is operated with one hand and doesn't interfere with the natural flow of exercise. You should take the time to try it before you jump into your exercise routine. Practice putting the LapCounter through its functions a few times. In most cases, you will want to wear it on your index finger (either the right or left hand may be used). Make sure it is oriented so you can comfortably reach the button with your thumb.

PRACTICE SESSION

This section of the instructions takes you through a practice session. The figures illustrate what you should see on the display as you work through the paces.

POWER-UP

Press the button with your thumb to start the LapCounter. On power-up, the display will show all "0's", which indicates that your LapCounter is powered up and ready to use (Fig. 1).

Fig. 1

COUNT

Press the button to begin counting. The display will register a "1". Press the button again, to see a "2", and so on. The LapCounter can count up to 9,999. After that, the display will start over again at "0".

Fig. 2

STOP

Upon completion of the final lap, the display will show the total number of laps. For example, you will see "22" if you completed 22 laps (Fig. 2)

RESET

To reset the LapCounter back to zero, hold down the button for at least three seconds, or until the display reads "00 00". It is now ready for your next activity.

TURN OFF/SLEEPMODE

The LapCounter shuts off automatically after about 30 minutes of inactivity in order to preserve the battery. Pushing the button during sleepmode will "wake up" the display at the point that it shut off. For example, if the LapCounter went into the sleepmode at 22 laps, it will show "22" when it "wakes up", and you can start counting from 22. If you don't want to start at 22, reset the LapCounter to start at zero.

CARE FOR YOUR SPORTCOUNT

WATER-RESISTANCE

All SportCount models are designed and manufactured to withstand the water pressure involved with normal swimming. After swimming, please be sure to wash the SportCount with fresh water and clean it with a dry cloth before storage.

TEMPERATURE

Do not leave your SportCount under direct sunlight or in very high temperatures for a long time, or the display may darken. Do not leave your SportCount in very low temperatures as this may cause a slight time loss or gain. In both cases, the above conditions will be corrected when the SportCount returns to normal temperature.

SHOCKS

Be careful not to drop your SportCount or hit it against hard surfaces as it may cause mechanical damage.

STATIC ELECTRICITY

The integrated circuit in your SportCount can be affected by static electricity. Avoid touching electronic devices, and be careful of clothing made of synthetic materials in dry weather that might create a strong static shock.

CHEMICALS

Do not expose your SportCount to solvents such as gasoline and alcohol, spray of cosmetics, cleaners, paints, etc., as they may cause damage to the SportCount.

BATTERY CHANGE

When the display becomes dim or turned off, battery replacement is necessary. We recommend you to go to a qualified technician or contact SportCount Inc. Replace with Lithium battery CR2016 or equivalent.

LIMITED ONE YEAR WARRANTY

Your SportCount is warranted to be free from defects in material and workmanship for a period of one year from the date of purchase except as specified below. Within the warranty period, your SportCount will either be repaired at the Service Center or, at our discretion, replaced with a new or refurbished SportCount. This warranty does NOT cover the battery, crystal, or band. Warranty service will not be provided if:

- there was damage while in the possession of the consumer not resulting from a defect of manufacture
- there was damage caused by tampering with or opening the SportCount or by other than normal use

SERVICE OR REPAIR

If your SportCount requires a service or repair, pack it securely and send it to:

SportCount Service Center
4330 East West Highway, Suite 310
Bethesda, MD 20814
